

## StainlessMate® Abrasive Cleaner

### The Gentle Abrasive Hand Tool

StainlessMate® Abrasive Cleaner are made using a special resilient rubber filled with hard abrasive grit. The grit is evenly distributed through the block so that a constant finish is imparted throughout the life of the tool, unlike abrasive cloths and sandpaper.

### Ideal Applications

- ◆ Removal of bluing of welds
- ◆ Removal of light scratches
- ◆ Removal of rust scale and corrosion
- ◆ Applying satin finish to stainless steel, aluminium and copper

### StainlessMate® Abrasive Cleaner

Part No.	Grade	Grits	Colour	Size (mm)
T0001	Extra Coarse	36	Wine	80mm x 50mm x 20mm
